90.2213.00	Wi-Fi Simulator 4 POSN Models: 41pro, 42pro	PR0242

Compatibility Matrix

The chart below is meant to help you understand what additional upgrades are required for your delivery system to receive the full benefits of the DS5 and A-dec+

System Checks		Yes	No
Delivery System	Is the delivery system a Continental® 300 non-300 Pro delivery system?	Update the delivery to the pro-style whips.	No additional delivery conversions are required.
Dental Chairs	Does the dental chair have a universal power supply and chair board? NOTE: 311B/411B/511B dental chairs came standard with Universal Chair Board and Universal Power Supply after November 2023 (invoice should say “Pro compatible”). All chairs manufactured before this date will require additional upgrade kits for full DS5 functionality.	No additional chair conversions are required for full functionality.	In order to have utilization of all chair-related software features, the chair must be updated to a Universal Chair Board (UCB) and Universal Power Supply (UPS). Users who do not have a UCB may experience slower updates and the chair preset functions will not follow a multi-user account from room to room. Additional enhancements that involve chair functionality such as the occupancy sensors may not be available. NOTE: The 311A dental chair is not capable of upgrading to a UCB and UPS.

Your A-dec Customer Service team is available to answer your questions at 1.800.547.1883.

What to Order
