

For Immediate Release:

Pac-Dent Introduces Ultrasonic Insert Tips into Preventive Product Portfolio
Magnetostrictive Insert Tips Available in May 2022

Brea, CA – May 2, 2022 - Pac-Dent, Inc. announced the launch of the 25K and 30K magnetostrictive ultrasonic universal insert tips for their South East Instruments Autoscaler. The addition of these insert tips will broaden Pac-Dent's growing dental portfolio, further solidifying its strong presence within the preventive space. The insert tips will be available for purchase on May 2, 2022.

"Pac-Dent is proud to continue offering dependable legacy hygiene products to our customers. The addition of the Autoscaler has added great value to our line of preventive products, and now being able to provide the insert tip to our customers completes the package for scaling and root planing needs," said Jacquie Sandoval, marketing manager.

Features and benefits of the Autoscaler Ultrasonic Universal Insert Tip include:

1. No-slip grip for greater tactile sensitivity
2. The inserts use a base flow water delivery
3. Compatible with all magnetostrictive handpieces
4. 90 Day Warranty against defects arising from faulty material or workmanship
