Ultradent Grows its South Jordan Campus

SALT LAKE CITY Utah December 1, 2021. Ultradent Products, Inc., a leading developer and manufacturer of high-tech dental materials and equipment, is beginning construction of a new facility on its South Jordan, UT, campus. A groundbreaking ceremony will be held December 16, 1:30 p.m. with key company representatives and local leaders in attendance.

The planned 170,000 square feet, state-of-the-art building will allow Ultradent to expand its growing manufacturing division—housing injection molding, equipment manufacturing, repair facilities, and more. The building will support 24/7 operations to facilitate Ultradent’s increasing domestic and international presence. The building—designed by PGA&W Architecture—is expected to be completed in early 2023.
